RITTER
Starkstromtechnik

Powerful Solutions

Worldwide application

Schitchgear devices
for high current-,
middle voltage and
railway applications.

Developing, Planing
And manufacturing of
individual customised
requests with
patented contact systems

DC Disconnectors for
direct current
up to 30 kA

High- current- disconnectors
Up to 300 kA

Blade disconnectors
Up to 40,5 kV

Short circuit switches
Encapsulated contact system
Up to 300 kA

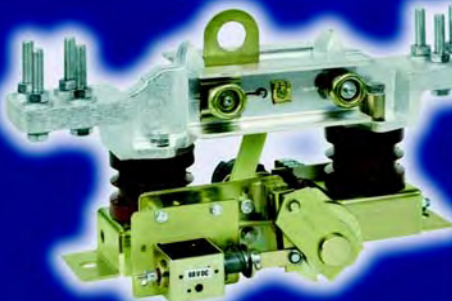

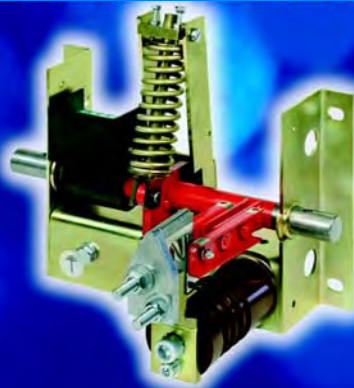

Make proof earthing switches
Up to 36 kV

Schwitchgear devices for
railway applications

Electromotive drives
